The Raffle Prizes for this month are too numerous to list, but they are very good ones. And, everybody wins, so don't miss it!

SEASON'S GREETINGS!

Next Meeting

The next club meeting will be the annual Christmas party. It will be held on December 29th at the Chuck-a-rama on 2960 So. Highland Drive. The party will begin at 7:00 p.m. and the dinner at 7:30 p.m. The cost will be \$8.15 for adults (kids 12 and under \$6.00). A club officer will call you to confirm your attendance. There will be the traditional "everybody wins" raffle with great prizes. Also, there will be spectacular prizes in a raffle the tickets for which will be based on meeting attendance. Don't miss it.

President's Message

Dear NUTS:

Our Christmas dinner is just around the corner and we're looking forward to having the whole club out at the Highland Drive Chuck-a-rama on December 29. Expect a personal call from a club officer to confirm your reservation.

If you missed last month's meeting you missed one of the most memorable and enjoyable times I've had in the past 6 years. Matt Mathie sang to us about the plight of the hard rock miner. The song was most enjoyable and Matt's voice never cracked once. He also showed us one of the two "dry operating sluice-boxes" that were made for Samuel Newhouse and used around 1910-20 in Newhouse, Utah. They worked on the concept of "no water is available in the desert, but lots of elbow grease is."

In the past year the club has really grown in membership and experience. Our meeting attendance has increased as have the funds in our treasury. We had many successful digs and club members have found more coins, tokens, and medals than ever before. All in all, it has been an enjoyable year. I would like to thank the club officers for their diligence and willingness to serve. Most of all, I would like to thank the club membership for being more involved than ever before. Everyone has worked hard, and I think the results of that work are evident.

Bob

Bill's Bull

Old man Winter has a hold on us until next Spring, so its time to turn our thoughts to research and preparation for the coming year. Its going to have to be a super year to outdo 1988. Our club did a good job with our show, we had a lot of new members join, and a lot of good finds were made on personal and club outings. I'm looking forward to being the club secretary. We've got some good ideas for next year to make the club even more fun. I hope to see you all more next year at our meetings and outings. The only way the club can be a success is for club members to be involved. Until the Christmas dinner, take care.

Bill

P.S. A little information on West Dip. I was talking to my Mom who was 16 or 17 years old when she lived in West Dip. She said she could remember a beer joint, as she called it, called "San something." (San Pedro?) I wish I'd have gotten more information from her before she had a stroke again (her second). Now she can't even remember talking to me. Worse, she can't remember who I am. Boy, could I kick myself... Maybe her beer

joint, as she put it , was the San Pedro Club. Knowing where all of the tokens were found and what she has told me, that's what I think.

Proposed By-Law Amendments

The following amendments to the by-laws of the National Utah Token Society were proposed in the November edition of the Token Hunter. They are referred to later in the newsletter as Amendment 1 (the first two double indented paragraphs), Amendment 2 (the third double indented paragraph), and Amendment 3 (the last double indented paragraph).

That the following paragraphs be added to Article I.

Any person of good character, 18 years of age or more, who has been a member of this society in good standing for at least one year, and subject to approval as described hereafter, may become a life member of his society.

Upon completion of his term of office, past presidents shall receive the honorary title of life member. This shall be a membership in name only and such members shall be subject to the requirements of Article III of these by-laws.

It has also been suggested that the following paragraph be added to Article III.

Every member applying for life membership shall at the time of his application for life membership pay a one time fee equivalent to the amount of fifteen (15) times the current regular annual dues at the time of payment.

It has also been suggested that the following paragraph be added to the By-laws.

When the annual vote is taken for club officers, if all candidates are running unopposed, there will be no separate ballot (including return postage) sent with the newsletter. Rather, a ballot which can be clipped from the newsletter will be used for voting purposes.

Dues Due - Don't Delay

It is that glorious time of year in which your club augments its treasury by collecting annual membership dues. YES, they are now due. But don't worry, look at how much you get for what little you pay. For only \$7.50 (individual) or \$12.50 (family), you can claim , to the envy of all your neighbors, to have all the NUTS on your block. You also get a subscription to the newsletter, the right to win door prizes at our meetings, the field outings, the Christmas dinner, and the latest information

on tokens in Utah. So, fill out the membership form and send in your dues right away. Why not do it with your ballot when you vote in the election?

Token Hunter Notes

The Token Hunter has had an eventful year, no special thanks to the editor, things just of sort of worked out that way.

In the "What's New" column we ran rubbings and/or information concerning new tokens or token-like material from Pleasant Grove, St. George, Mercur, Vernal, Tooele, Beaver, Frisco, Saltair, Spring Canyon, and Bingham.

We printed "advice" columns on token finding and pricing and feature articles on the Tintic Mining District, Mercur's Golden Gate Saloon, Eureka's "Crazy Dutchman," the First Utah "U.T." Territorial Token, Salt Lake City and Utah Transit Systems, the Coming of the Railroad to Juab Valley, and the History of Helper.

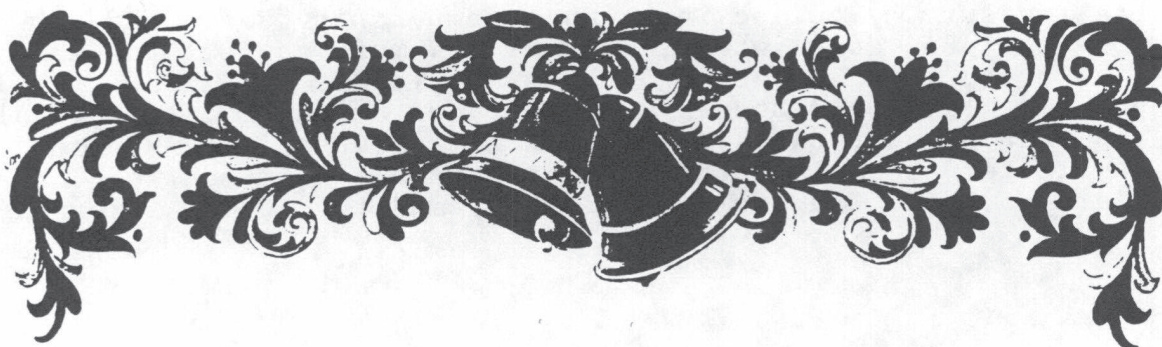

We ran news of numerous successful treasure hunts (even a "robbery" in Goldfield, Nevada) and discussed pertinent token topics such as whether a tool check is a token and how club members can best support the annual club coin and token show.

We also published, by my count, some fifty pages of the Davich papers on Park City tokens and their history, together with rubbings, references, and notes and comments.

We learned from the wisdom of club officers in their messages and benefited by lots of other good material as well.

I three-hole punch my newsletters and keep them in one of those little folders that we used to put our reports in for school. The Token Hunter is a resource worthy of saving.

(Now, please forgive the Editor, he promises to get on this soap box only once in a while.) The thing which will make the newsletter even more effective in 1989 is the same thing which will make for a better NUTS club: increased participation by club members. Don't miss the opportunity to contribute to the preservation of Utah's history in a way that no one else can. Share your finds, research, experiences, and opinions. Record them for posterity. Contribute to the Token Hunter.

Davich Papers - Installment XI

NAME: __ CLARK, Pap __ (Patrick Clark) Park City Utah

DESCRIPTION of token in collection.

OBVERSE: PAP CLARK. A dash(-) dot(.) Dash(-) appears above the name of PAP, and a dash(-) dot(.) dash(-) appears below the name of CLARK. A Star(*) appears to the right and to the left of the word PAP. A period appears below the letter of "A" of the word PAP. Token has a plain border.
